

# Steel Lockers

## Overview

Penco has been building lockers for over 150 years that last for decades and have become part of the fabric of American life. Look in any school and chances are you'll find Penco's lockers in the athletic department, field house, faculty break room and of course, lining the corridors.

School lockers may be Penco's foundation, but the spectrum of products doesn't end there. Penco has locker solutions for recreation centers, health clubs, hospitals, back office and industry break rooms, while at the same time delivering the widest range of solutions to serve first responders in the military, law enforcement and fire and rescue profession.

**For locker specifications, see page 48.**

## Terms Used in This Catalog

**KD:** Knocked Down, or lockers that are shipped unassembled for assembly and installation at their destination.

**W:** Welded, or lockers that are shipped assembled for installation at their destination.

**GA:** Gauge of steel - indicates the thickness. The lower the number the thicker the steel.

**LH & RH:** Left Hand and Right Hand side of a locker, as seen standing in front of a locker.

**Tier:** A "level" of a locker defined by the number of doors in a vertical row. This can range from 1 to 9 tiers.

**Opening & Frame:** Opening is what is behind a door. A frame is the unit that holds the doors. There can be multiple doors per frame.

**Double Row:** "Back-to-back" lockers.

**Double Door Locker:** A locker with two full length doors that open in the center.

**W, D & H:** Width, Depth & Height dimensions (inches).

NOTE: Welded Gen2, Stadium and Patriot lockers are not shown above.

## Ventilation Options

### Cremone Multi-Point Handle

Available on *Guardian Plus*, *Invincible II*, and *Welded Gen2* ONLY

An unbreakable steel handle securely bolted to a 3 point latching system.

A 3/8" diameter latching rod engages at the top and bottom of the door frame. A 1/8" thick center latch locks the center of the door to the frame. The cremone handle is available on a variety of KD and welded heavy duty locker doors; it is standard on Patriot Gear and Duty lockers.

## Handles & Latching

**Die-Cast Handle.** This patented die-cast handle opens multi-point latch lockers with one simple motion. Standard on 1, 2 & 3 tier, 2-Person and Duplex Vanguard lockers.

**Automatic Multi-Point Latching.** Allows the door to be closed without locking. Standard on all multi-point doors except box lockers, Single Point Latch doors and Cremone Handle lockers.

**Classic III Stainless Steel Recessed Handle.** Seamless deep drawn design is attractive as well as strong. Utilizes the Automatic Multi-Point Latching feature.

Standard on all 1, 2 & 3 tier 2-Person and Duplex, Vanguard Recessed, Guardian & Guardian PLUS lockers. Also standard on Invincible II and Welded Gen2 1, 2 and 3 tier lockers. This is the preferred handle for ADA lockers.

**Defiant II Single Point Latch.** Stainless steel deep drawn pocket with no moving parts (single point latch). Used with a vertical or horizontal pan welded to door. Standard on 1, 2 and 3 tier Defiant II Locker models.

**Anti Pry Lug.** Defeats prying attempts by capturing the door flange and preventing separation from the door channel.

See Defiant II details on page 52.

**Friction Catch Door Pull.**

All box lockers come standard with this friction catch door pull handle with padlock hasp.

**Spring Loaded Positive Latch.** This latch, also known as a "Slam Latch", is available as an option on heavy duty box lockers.
